

COMMERCIAL

Designed for use on large trucks and buses. These chains have been developed for use on large radial truck tyres. Heavy-duty construction suitable for light to heavy commercial vehicles operating in challenging conditions.

ICECAT COMMERCIAL

Heavy duty V-bar • Bungy tensioning system • Aggressive traction

Supplied as a pair of chains.
Comes with rubber bungy tensioners.

ICECAT FEATURES

Intended for these conditions:

- Extreme winter conditions and icy roads
- Frozen carparks, driveways and roads
- Heavy terrain and off-road conditions

Suitable for use on:

- Standard radial truck tyres
- Dual wheeled trucks and buses
- Unsealed ski field access roads
- Off-road and mountainous areas
- Large trucks and buses; heavy commercial vehicles
- Scenic tourist buses and heavy transportation services

Performance:

- Full chain construction improves strength and durability
- Adequate wheel clearance is critical to safe operation
- V-bar chain leaves minimal impression on paddocks and soft grass
- Fit Icecat chains to the rear tyres to get more grip and improve propulsion
- Additional weight per wheel means the vehicle must operate at slow speeds
- The V-bar chain needs to break through thick ice to get traction
- In some circumstances this may not be possible –use caution on ice at all times

Specifications:

- 9.5mm case hardened v-bar chain
- Heavy duty cleats, hooks and cam levers are used for extra strength
- Rubber tensioners with hooks (one pair)

TYRE SIZES

Icecat C1	Icecat C2
265 – 70 -19.5	900 – 20
	275 -70 - R22.5
